

BSNCOC Student SMS/BlackboardRegistration

Click on the Registration link below, or copy & paste into a web browser.

<https://armyusms.tradoc.army.mil/students/NCOLCOE/addUser.asp?sT=5962>

Once you have clicked on the link, sign in with your CAC.

- You will see a *confirmation of attendance* notice, please review, and click next.
- The form is auto populated with your information (ensure that the information is accurate) and click submit.
 - Verify that you have access to the email address that auto populates **BEFORE CLICKING SUBMIT.**
 - If you do NOT have access to that email account, then manually change the email address to an account you can access.
 - The email address can be changed to a civilian email address.
 - This is the email account where your username and password will be sent after you physically report for your BNCOC class.
 - If the form does not let you update your email address, then let the BNCOC facilitators know immediately during in-processing.
- You are done with registration for your class.

Next step: Once the schoolhouse has gone in to confirm your registration after you physically report for the BNCOC, you will receive a username and password for NCOLCoE Blackboard. Courseware can then be accessed at the below link:

<https://ncolcoe.blackboard.com>

You will then be able to login and access your class from any computer or mobile device without a CAC.
